PROLIMIT

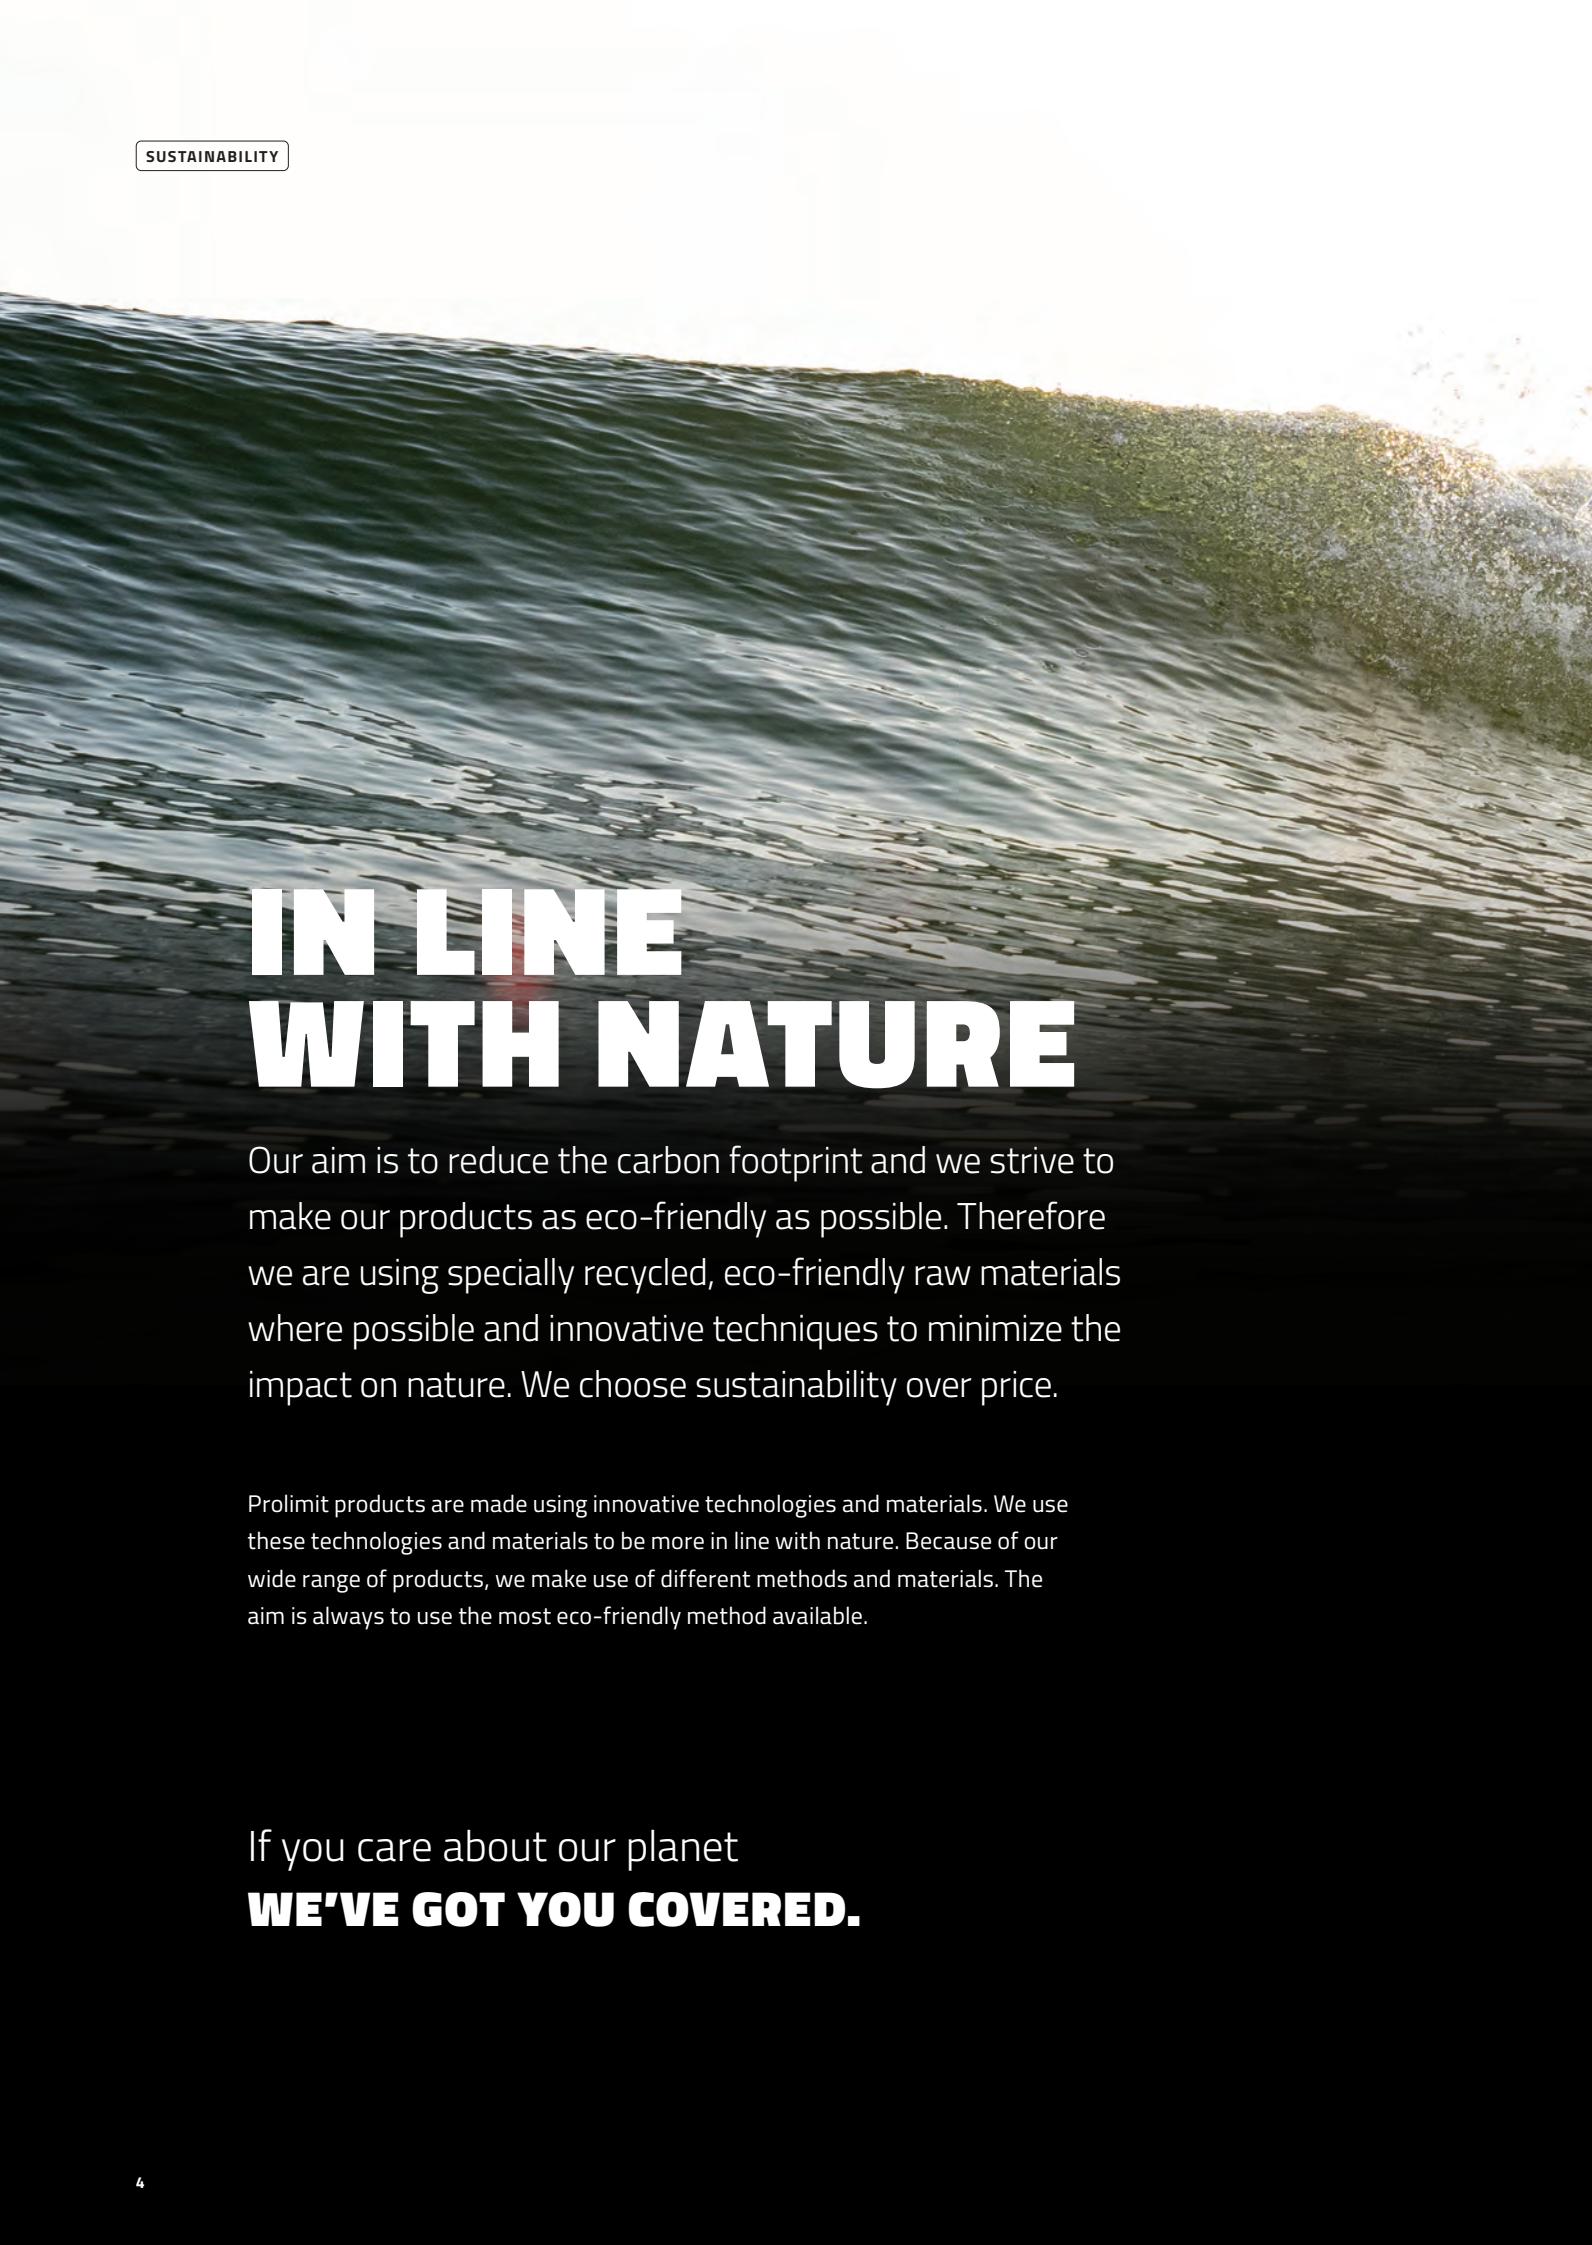

# TECH BOOK 2023

Prolimit is driven by a desire to create and build innovative watersport products. We lead the market with superior technology, applying industry-first innovations across a range of superior quality products.

**Prolimit was founded in the Netherlands and we are represented worldwide. Since it is inception, Prolimit has been instrumental in nurturing champions in the windsurfing, kiteboarding and standup paddle arenas. Many of the world's best athletes have found fertile ground with Prolimit, with our superior products allowing them to develop their talents.**

Our product engineering and marketing is driven from our head office in the Netherlands, working closely with our R&D and Design office in Cape Town, South Africa and extend to every beach in the world. Our extended team consists of a stable of talented designers, who physically test Prolimit products on the rugged, often challenging South African coastline, Australian heat and oceans across the world.

This, along with sub-zero conditions further north in the Netherlands, ensures more product testing time across all seasons. We also collaborate with experts from the USA, Australia and Taiwan on product technology. Our long lasting and strong relationships with the best factories in the world, ensures a superior quality product line that stands apart from the rest.

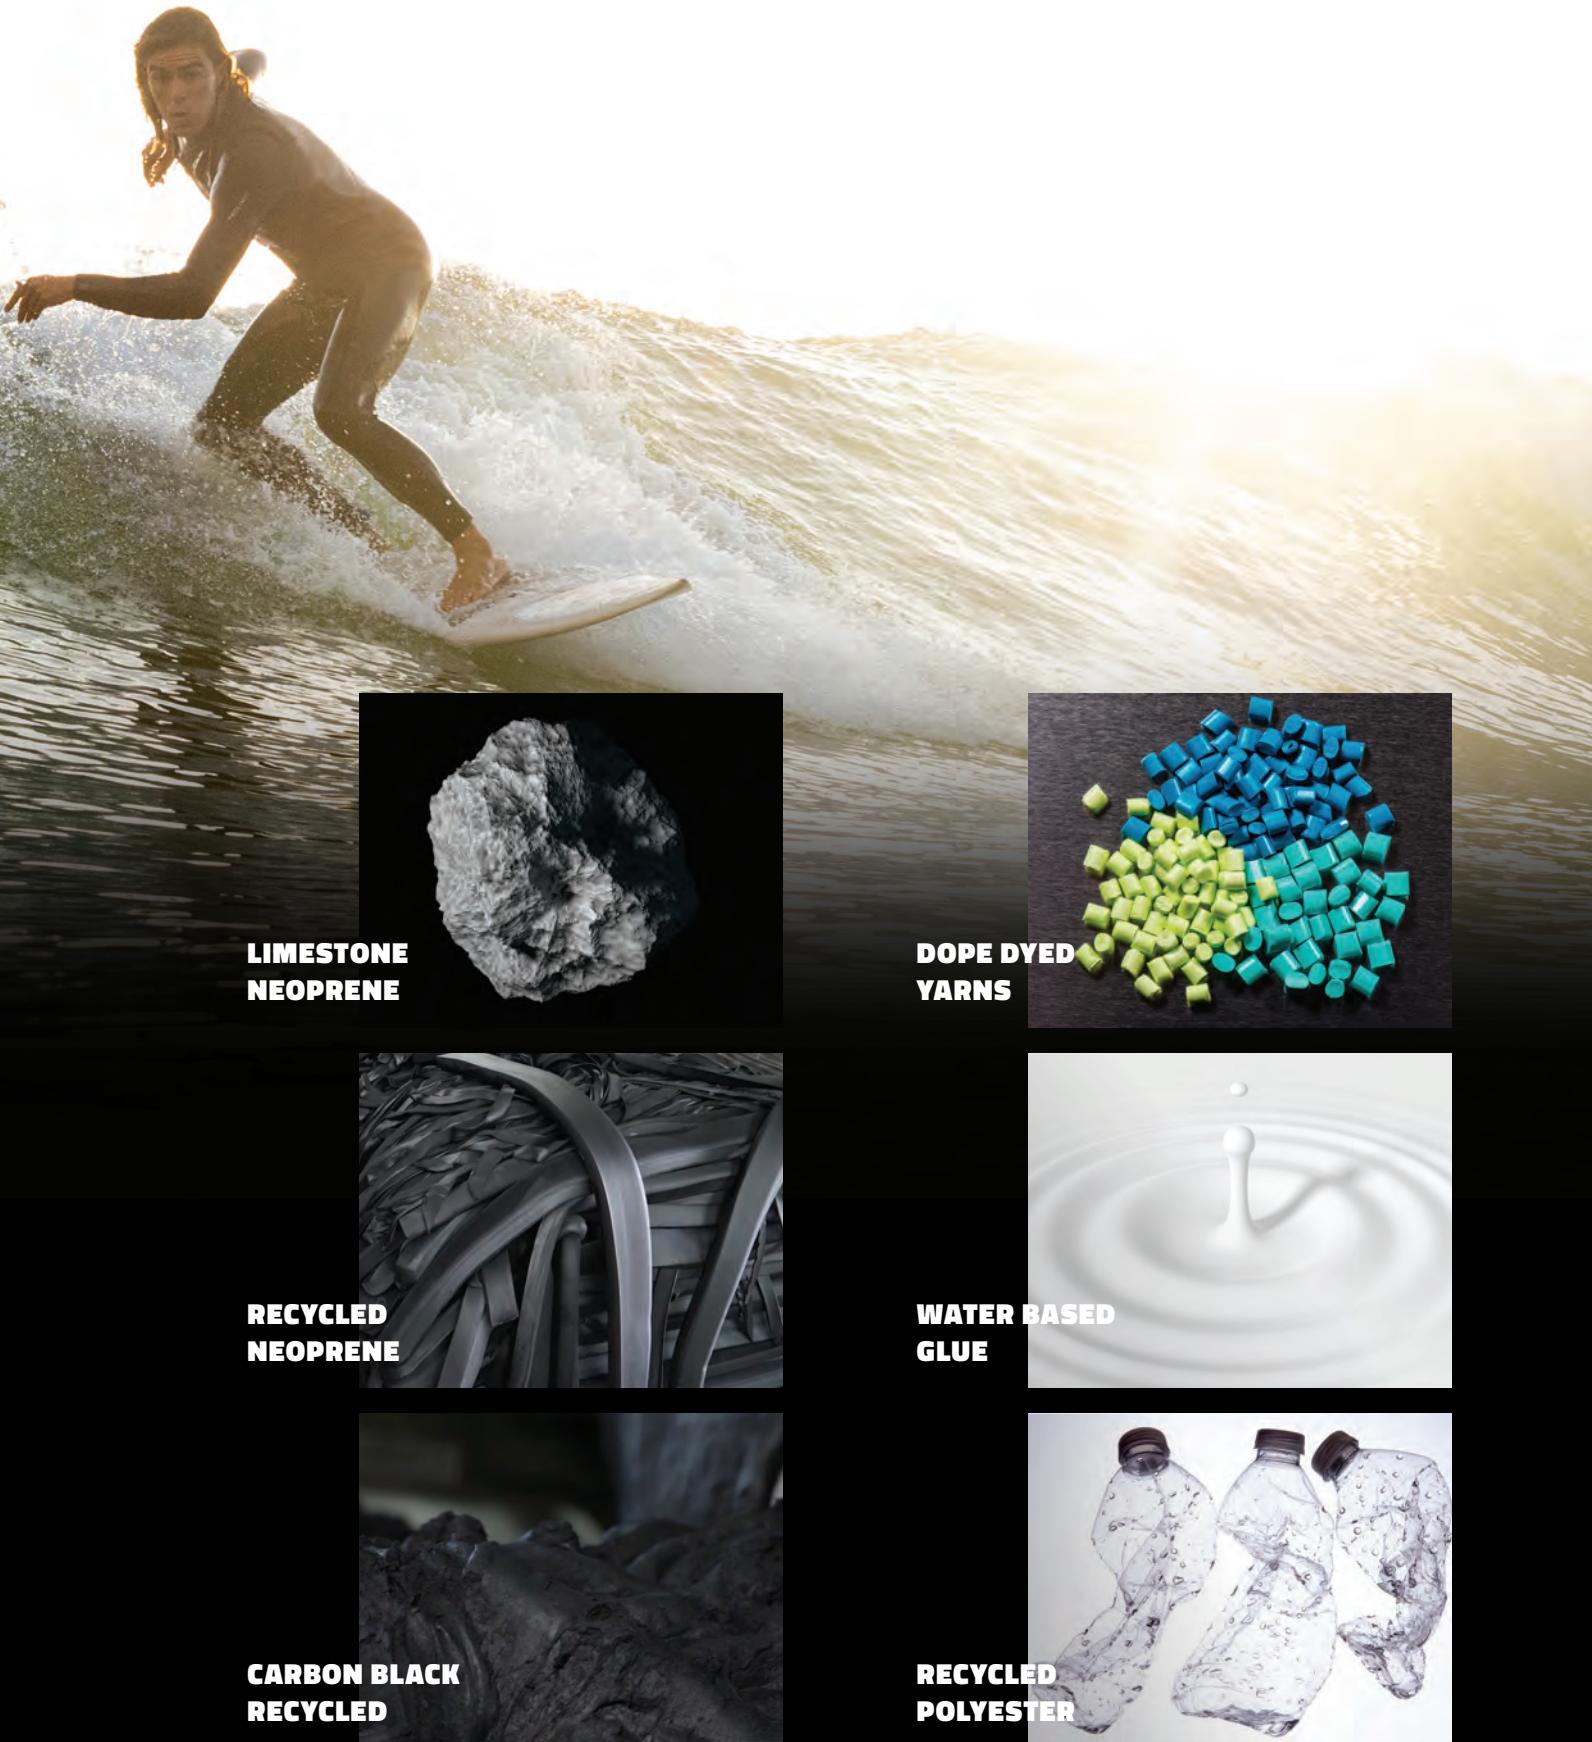

# IN LINE WITH NATURE

Our aim is to reduce the carbon footprint and we strive to make our products as eco-friendly as possible. Therefore we are using specially recycled, eco-friendly raw materials where possible and innovative techniques to minimize the impact on nature. We choose sustainability over price.

Prolimit products are made using innovative technologies and materials. We use these technologies and materials to be more in line with nature. Because of our wide range of products, we make use of different methods and materials. The aim is always to use the most eco-friendly method available.

If you care about our planet  
**WE'VE GOT YOU COVERED.**

# WETSUITS TECHNOLOGY

At Prolimit we have been creating wetsuits since 1980. Over the years we have introduced many innovations. Some of which are still being used in wetsuits all over the world.

PROLIMIT

## NEOPRENE

**FSC - NATURE PRENE**

Our PF2 is the first wetsuit in the industry with an FSC approval, and therefore the most sustainable wetsuit ever made. FSC (Forest Stewardship Council) is promoting environmentally appropriate products.

**V4X FABRIC**

A new generation of neoprene. With a unique appearance, irresistible looks and used on our highend Vapor wetsuits. Isotropic stretch characteristics in combination with Airflex2 lining and Zodiac2 lining are giving the Vapor unbeatable stretch, durability, warmth and a unique look.

**NEOLIGHT HEATHER 550+**

The heather fabric ads the luxury look on our Mercury and OxyGen wetsuits. Besides looks the extra yarns offer a softer, more stretch and a smooth feel to the outer lining. The two tone colorscheme also indicates the areas in which the unique TR lining is used. Now in combination with our velvet feel Airflex2 inner lining and Thermal Rebound triple layering. Nasa technology incorporated.

**DOWN AIRFLEX**

Our newest fabric, water repellent and dry wicking with the feel of down and the maximum stretch of our airflex neoprene. New on our Predator and Flare wetsuits. Softfeel and in combination with the Velvet AirFlex2 lining a unique material.

**LIMESTONE NEOPRENE & LIMESTONE REACH COMPLIANT**

Limestone neoprene is more effective, more comfortable, longer lasting and eco friendly compared to petroleum based neoprene. This makes our wetsuits easy to take off, have less drag and increased buoyancy for increased performance in above watersports.

**AIRFLEX 550+ AND 300+ LIMESTONE NEOPRENE**

We feature 3 types of Airflex neoprene. 300+, 500+ and 550+ stretch. Airflex neoprene is made out of limestone neoprene and by changing the formula of the foaming agents we can determine the stretch in our raw material. Laminating with the different backings is determining the final flex of the panels.

Reach Compliant means we have achieved to ban the use of extender oils in our neoprene sheets for a better environment. PAH neutral neoprene has improved characteristics such as weight, stretch and it prevents skin irritation that could be caused by extender oil residues or solvent containing glues and complies with the most strict rules for Restrict of Chemicals (Reach) as regards to polycyclic aromatic hydrocarbons.

### FTM TAPED SEAMS

Our Fluid Taping Method seam construction. Triple glued seams with the outside of the seam sealed off by a wider black carbon neoprene seal. The inside of the seam is protected by our glued and blind stitched technology. FTM taped seams are durable, watertight and keep their high stretch.

### GLUED AND BLINDSTITCHED SEAMS

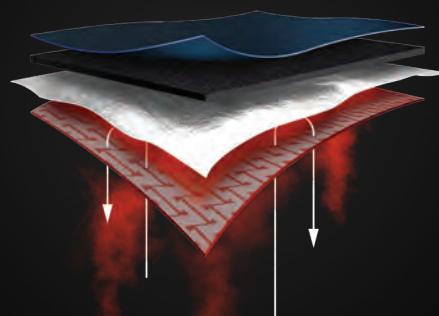

Triple glued panels are stitched together with a special stitching method. Partially puncturing the neoprene to keep the water tightness of the wetsuit seam. Each thread is protected by a tape at the end. Our perfect finish makes our glued and blind stitched wetsuit indestructible. Precise seam and material placement for a tailored fit. Designed to fit your body without over-stretching the neoprene, which prevents stretched out thin neoprene and loss of thermal insulation.

### FLATLOCKED SEAMS

Flatlock stitching involves laying one panel against the other, then stitching through the neoprene. The resulting seam is flexible and strong but not watertight. This makes it more suited to summer or warmer water surfing.

INSIDE

### THERMAL REBOUND™

Thermal Rebound™ lining is directly derived from survival blankets for the protection against cold conditions. Thermal Rebound, the warmest suit ever. This technology goes back to the mid 1970's where NASA developed the thermal blankets for their manned missions into space as insulation. Since 2011 the same principle is used on all major sporting events where Athletes are draped in shiny silver blankets when they finish. Hypothermia is avoided and cramped muscles is reduced. Prolimit combined NEOPRENE and laminated this on the inside with a Thermal alloy material with on top the comfortable Zodiac quick dry lining. Creating the warmest wetsuit on the market today!

### ZODIAC2 LINING

Zodiac Jacquard velvet fleece on the inside, layered with a quick dry thermal fleece for more warmth and comfort. It absorbs the water from the skin, releases quickly and increases comfort.

### VELVET AIRFLEX 550+ & 500+ LINING

Softer than ever before, more stretch, comfortable feel and quickdry. Another milestone in wetsuit technology. Clearly recognizable because of the feel... smooth as velvet.

 FSC AQUA 

## PF2

First wetsuit in the industry with an FSC approval, most sustainable wetsuit ever made. FSC (Forest Stewardship Council) is promoting environmentally appropriate products. Also including cleaner air and water. Our Prolimit PF2 series is made out of plant based rubber derived from sources that are FSC certified. Our certified neoprene is laminated with recycled polyester and a lining made out of recycled PET bottles. Lamination is done with water based glue. 20% more stretch and lighter than previously offering full freedom of movement for most extreme conditions.

YULEX PLANT BASED NEOPRENE

FSC APPROVED

INNER PLUSH LINING IS MADE OUT OF RECYCLED POLYESTER AND  
REPLACES ZODIAC LINING

## MERCURY

These are the proven concept and the most versatile wetsuits. The Prolimit Mercury TR wetsuit for men is our best-selling suit. The suit has Thermal Rebound technology, this is an extra layer in between the neoprene and Zodiac that reflects body heat and blocks wind chill. The seams are taped so they are watertight and protected.

# RAIDER

OUR ENTRY LEVEL WETSUIT

The Prolimit Raider wetsuit for men is the most basic wetsuit in our wetsuit collection, however it still has enough technical aspects to keep you warm during your session. This suit has a vertical back zip with water block, which blocks the water from coming in. The seams are Triple Glued and blind-stitched, which means that the seams are watertight. GBS construction on the 5mm Steamers for warmth. The Shortarm version feature removable arms to make them versatile in various summer conditions.

# OXYGEN

These are the proven concept and the most versatile wetsuits. The Prolimit Oxygen TR wetsuit for women is the best technical wetsuit. The suit has Thermal Rebound technology, this is an extra layer in between the neoprene and Zodiac that reflects body heat and blocks wind chill. The seams are taped so they are watertight and protected.

# NORDIC DRYSUITS

WARM IN THE COLDEST CONDITIONS

The 4-layer lightweight waterproof breathable fabric combines a hydrophobic outer for waterproofing and hydrophilic inner membrane for keeping moisture away from the body. These suits are made out of the best materials possible. Dryzippers made for submersion conditions, dryseal cuffs on ankles and wrists made out of neoprene and combines fully taped inside seams. The maximum freedom of movement is guaranteed, best to be combined with our Prolimit innersystems. Windsurfing, Kiteboarding, SUP or other watersports suited.

# NEOPRENE ACCESSORIES

**HEADBAND**

The Prolimit neoprene headband keeps your ears warm during colder sessions. Because of the Velcro closure you can adjust the headband for ultimate comfort.

**BLACK** 402.10110.010 S, M, L, XL

**HEADBAND EXTREME/ZODIAC**

The Prolimit neoprene headband keeps your ears warm during colder sessions. Because of the Velcro closure you can adjust the headband for ultimate comfort. Zodiac Plush lining inside assures warmth and comfort.

**BLACK** 402.10115.010 S, M, L, XL

**NEOPRENE HOOD**

The Prolimit neoprene hood mesh protects your head during cold sessions on the water. The neoprene of this hood is 2mm thick.

**BLACK** 402.10120.010 S, M, L, XL

**NEOPRENE HOOD WITH VISOR**

The Prolimit neoprene hood with visor protects your head during cold sessions on the water. The neoprene of this hood is 2mm thick.

**BLACK** 402.10125.010 S, M, L, XL

## NEOPRENE HOOD WITH COLLAR

The Prolimit neoprene hood with visor protects your head during cold sessions on the water. The neoprene of this hood is 2mm thick. You can tuck the collar into your wetsuit for maximum warmth.

**BLACK** 402.10128.010 S, M, L, XL

## NEOPRENE HOOD XTREME WITH VISOR

The Prolimit neoprene hood x-treme with visor protects your head during cold sessions on the water. The neoprene of this hood is 2mm thick. The visor helps to protect your eyes from water and the collar prevents the water from getting into your suit.

**BLACK** 402.10130.010 S, M, L, XL

## NEOPRENE BEANIE STANDARD

### FEATURES

# HARNESSES TECHNOLOGY

Prolimit presents three premium harness constructions.  
Because no matter what support you like, we've got you covered.

**We create and innovate and we have been doing so since 1980. We are very stoked to share the Prolimit new range of harnesses with you. We made two new constructions next to the 3D molded construction; the hardshell carbon composite construction and the hardsell pure tm construction.**

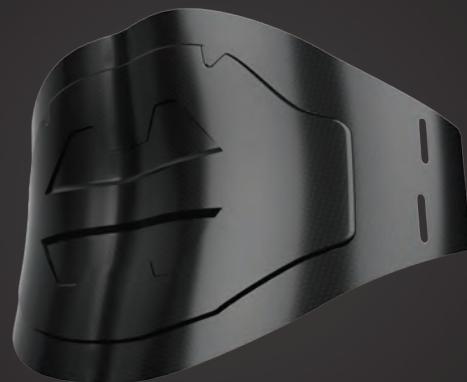

Because of our wide range of harnesses, we can ensure you that no matter what type of support you like, we've got you covered. Whether you go kitesurfing, wing foiling or windsurfing with the Prolimit harnesses you can go for the best. Every body type is different and it is also very personal what kind of support you like. Therefore we made three different constructions and many differents molds with different inner plates.

**PROLIMIT**

NEW

## HARDHELL CARBON COMPOSITE CONSTRUCTION

The most stiff harness we have in our range. Hardshell Carbon Composite Construction is the most stiff harness. The torsion and horizontal flex are minimized. The Carbon composite construction is precisely pre shaped on 3D molds and pre-shaped with neoprene soft edges. Carbon is well known for its light, strong and stiff characteristics. The Hardshell connects directly with the straps transferring the load of the harness.

NEW

## HARDHELL PURE CONSTRUCTION

A Hardshell harness with some elasticity due to the exclusive PURE™ materials. PURE™ is Extreme light and super impact resistant (PURE™ is lighter than water and 100% recyclable) and with elasticity. Offering more torsion flex while maintaining the superior feel and fit of a hardshell construction.

## INTERNAL SHELL 3D MOULDED CONSTRUCTION

Pre shaped innershell of PE board with straps incorporated on the shell and perfectly 3D shaped harnesses. A 3D molded outside skin construction supports the harness construction. The main difference between a Hardshell and a 3D shaped innershell harness is the outside. On hardshell visible and on the Thermo molded harness the shell construction is protected by the outside mold.

# ALPHA

## ALPHA BAR

Made out of glass fiber reinforced nylon for extra stiffness and backup up with an surface treatment of electroplated titanium finish on the stainless steel parts for higher durability, less wear and a unique look. Titanium electroplated finish is also found on high end bike components. The Alpha bar combined with a unique dual layer of thermofoamed 3D shaped bar pad.

PROLIMIT

## FATBAR MPL

Patented stainless steel Pin release bar in overdimensioned steel version. The extra FAT dimensions are making this bar the strongest spreaderbar out there. 30% stronger then normal sized stainless steel bars and equipped with the patented pin release. The MPL side construction, Multi Point Load, are distributing the force over 4 straps spreading the load distribution evenly and comfortable over the sides of the harness.

## PIN RELEASE BAR

A patented innovation from Prolimit. Easy, reliable, release and closure of the bar with added safety in stress situations. Snug fit and once set the buckles do not need extra tightening or release.

## EZ BELT

This waist belt connects the harness closely to your body and the amount of tension determines the amount of sliding for your personal preference. The EZ belt forms a 360 degrees tensioning of your harness around your waist. Easy, precise and adjustable with the Velcro tabs.

## 4-POINT CONNECTED NEOPRENE BELT

A unique belt. Once set with the memory tabs this belt is giving you the highest mechanical support a belt can give. The harness can not ride up as is connected as a second skin. It also functions as a kidney belt keeping your kidneys in place on bumpy water resulting in an effortless and easy ride.

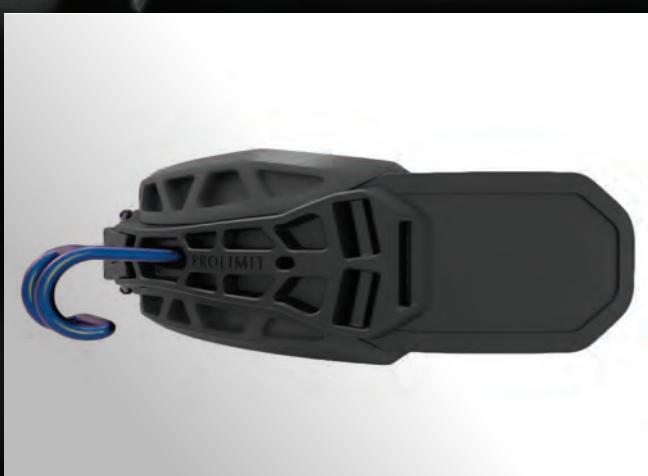

## ELASTIC CLOSURE BELT

The elastic waist belt is connecting both sides of the harness evenly and gives less friction with bars and a secure fit.

## NEOPRENE SOFT EDGES

An Prolimit innovation which set the benchmark in the industry, Comfortable 3D shaped neoprene softedges avoid rash and create a comfortable ride in all maneuvers.

## EVA SKELETON BARPAD

Made out of 2 densities of foam, 3D molded and supporting our ALPHA bar for a comfortable ride while protecting against impact.

## MOLDED SLIDE IN BARPAD

A Prolimit innovation which set the benchmark in the industry. The 3D moulded barpad slides in the sides of the harnesses and forms the perfect 360 degrees circle to form a unity of barpad and harness. Avoids riding up of the bar and distributes the forces evenly.

## DUAL DENSITY SUPPORT PILLOW

The DUAL density support in the pillow follows the contours of your body and gives added comfort. Different layers of foam contribute to the perfect shape and fit.

## NEOPRENE SOFT FOAM INSIDE

An Prolimit innovation which set the benchmark in the industry. Comfortable 3D shaped neoprene softedges avoid rash and create a comfortable ride in all maneuvers.

## BACKSUPPORT CONTROL SYSTEM (SEAT)

The extra straps controlling the shape of the top part of the harness are supporting the pressure on your back and with two straps the tension can be controlled. Extra comfort and an option to tailor the shape of the harness.

## CUSHIONED HALF RELEASE LEGSTRAPS

A unique and easy system allowing to half release your legstraps for an easy entry and avoid swing around of the legstraps. Once lead over the extra bungee it can also function as a full release legstrap.

PROLIMIT

## WINDSURF HARNESSES

PROLIMIT

## ARGON

HARDBACK CONSTRUCTION

**The new hardshell harness in PURE TM material giving elasticity, superior fit, pre moulded shape in a Mach VI 3D shaping.**

A hardshell harness with some elasticity due to the exclusive PURE materials. Due to the unique Pure material the harness is lighter (Pure is lighter than water and 100% recyclable) and more flexible. In contrast to the Hardshell carbon composite construction the pure construction has more torsion flex.

WHITE 405.72030.020 20 LITER

BLACK 405.72030.010 20 LITER

### FEATURES

SOLID ROLL-TOP CLOSURE SYSTEM

THE DRY BAG WILL FLOAT ON AFTER BEING ROLLED AND CLOSED.

PERFECT FOR KAYAKING, PADDLING, SAILING, CANOEING AND MUCH MORE OUTDOOR ACTIVITIES

## TOILETRY BAG

BLACK 405.71100.000

### FEATURES

FOLDABLE

HOOK TO HANG IT ON ABOUT EVERYTHING

WET COMPARTMENT

## BACKPACK TECH

BLACK 405.71045.010

### SIZES

51 X 32 X 30

### FEATURES

LUXURY TECHNICAL BACKPACK

VENTED AND PADDED BACK PANEL FOR COMFORT AND COOLING

EXTERNAL LOADSTRAPS OFFER MULTIPLE POINTS OF ATTACHMENT FOR ALL YOUR HARDWARE

EASY PACK TOP LID QUICK ACCESS TO THE WATERPROOF COMPARTMENT THAT CAN TAKE A FULL WETSUIT

SOFT, SCRATCH PROOF LAPTOP COMPARTMENT AND OUTER QR STRAPS FOR SKATE OR SNOWBOARD

3D MOLDED SHOULDERSTRAPS WITH STERNUM STRAP

## STACKER BAG

HEATHER GREY 405.71080.040 M, L

	SIZES	VOLUME	WEIGHT
MEDIUM	76 X 33 X 30	65 LITER	1,3KG
LARGE	83 X 35 X 30	100 LITER	1,3KG

### FEATURES

IDEAL FOR TRIPS

STACKER STYLE OPENS FLAT FOR EASY PACKING

RETRACTABLE HANDLE ON MEDIUM SIZE

## CAR SEAT COVER

**BLACK/HEATER GREY** 404.84700.000 55 X 130 CM / 21.65" X 51.18"

### FEATURES

TOUGH AND WATER RESISTANT MATERIAL (600D POLYESTER)  
 PROTECTS CAR SEATS FROM SAND, DIRT, WATER, FOOD, ETC  
 FITS MOST INDIVIDUAL FRONT CAR AND VAN SEATS  
 VELCRO ACCESS FOR ARMRESTS  
 EASY TO INSTALL AND REMOVE  
 NOT DESIGNED FOR INDIVIDUAL BACK SEATS (FOR INDIVIDUAL BACK SEATS, USE OUR MODEL "UNIVERSAL")

## TOTE BAG

THE TOTE BAG MAKES TRANSPORTING ALL YOUR GEAR. WHETHER IT'S YOUR WETSUIT, TOWEL, HARNESS, OR PUMP – THE TOTE TAKES IT ALL. WATERPROOF COATING MADE OF 600D POLYESTER, IT'LL KEEP EVERYTHING DRY. CARRY THE BAG BY SHOULDER OR HAND.

**BLACK/WHITE** 404.84540.000 L, XL

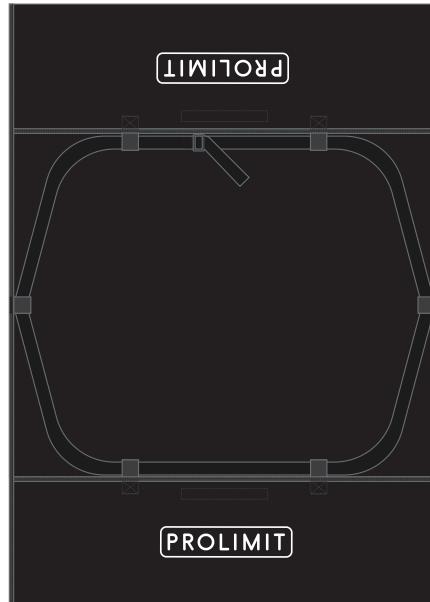

### SIZES

LARGE 55 X 37 X 30 (L x W x H)  
 EXTRA LARGE 72 X 50 X 49 (L x W x H)

### FEATURES

POLYESTER 230D  
 DOUBLE NYLON ZIPPER  
 38 MM SHOULDERSTRAP

## WRAPPER WETSUITBAG

BLACK/WHITE

404.84545.000

148X100CM

### FEATURES

OUR WRAPPER WETSUIT BAG/CHANGING MAT IS MADE OF WATERPROOF COATED 600D POLYESTER, IT'LL KEEP EVERYTHING DRY.

THE FLAT DIAMETER OF THE MAT IS 148CM X 100CM, IT'S BIG ENOUGH TO LET YOU STAND ON THE MAT CHANGE CLOTHES.

ADJUSTABLE SHOULDER STRAP, IT'S EASIER TO TAKE WITH YOU ANYWHERE!

ESSENTIAL ACCESSORIES FOR WATER SPORTS, EASILY TAKES YOUR WETSUIT, TOWEL, HARNESS, OR PUMP – THE WRAPPER TAKES IT ALL INTERNAL EXTRA POCKET FOR STORING KEYS AND OTHER MINI ACCESSORIES.

PROLIMIT

## BOOMS & RIG COMPONENTS

## PRO BOOM

High performance boom: developed for maximum strength and functionality.  
Specific boom profile and monocoque construction.

**BLACK/BLUE/ORANGE** 407.71210.030 140-200, 160-220, 180-240, 200-260

### FEATURES

29MM DIAMETER WITH 1.5MM WALL THICKNESS  
ROBO EVA GRIP  
MADE FROM T8 EASTON ALLOY, 2 PIECE CONSTRUCTION  
CONTINUOUS ALLOY FRONT AND BACK END TO OPTIMIZE STIFFNESS.

DOUBLE PIN ADJUSTMENT SYSTEM FOR EASY ADJUSTMENT  
60CM ADJUSTMENT FOR MAXIMUM SAIL RANGE COVERAGE  
AXIAL BOOM HEAD WITH INTEGRATED SKINNY ADAPTER

## ASSAULT BOOM

V-grip. An extruded dual alloy tube for stiffness and comfort in a smaller diameter boom. The tapered and ovalized inside section of the boom is ergonomic and reducing fatigue and arm pump. Featuring a 29mm Diameter with 1.5mm wall thickness made from T8 Easton Alloy. The Assault has 60cm adjustment for maximum sail range coverage. More power and less effort.

**BLACK/ORANGE** 407.71220.010 140-200, 160-220, 180-240, 200-260

### FEATURES

SPECIFIC BOOM PROFILE CONSTRUCTED FROM CONTINUOUS ALLOY TUBE  
ROBO EVA GRIP  
29MM TUBES, T8 ALLOY IN 1.8MM WALL THICKNESS  
ALLOY BACK-END

DOUBLE PIN ADJUSTMENT  
50CM ADJUSTMENT FOR MAXIMUM SAIL COVERAGE  
2 PIECE CONSTRUCTION

## TEAM BOOM

The Team boom is featuring an RDG diameter in the grip area of 26mm. Including our new RDG cup Axial boom head on the 145. On the 160 and 175 our axial boomhead with skinny adapter.

**BLACK/BLUE/ORANGE** 407.71231.010 145-195, 160-210, 175-225

### FEATURES

MONOCOQUE CONSTRUCTION

ROBO EVA GRIP

NARROW DIAMETER IN THE GRIP AREA OF 26MM (RDG)

MANUFACTURED FROM 1.8MM THICK TUBE, FOR MAXIMUM STIFFNESS

CONTINUOUS FRONT AND BACK END.

DOUBLE LEVER PIN ADJUSTMENT SYSTEM

50CM ADJUSTMENT FOR MAXIMUM SAIL COVERAGE

2 PIECE CONSTRUCTION

AXIAL BOOM HEAD WITH INTEGRATED SKINNY ADAPTER (160)

145 RDM AXIAL BOOMHEAD

## TCS BOOM

They Call me Skinny. Our TCS is a full 26mm diameter boom with a continuous alloy backend. It's a performance driven wave boom. 2 piece Alloy Axial boom. Including our new RDM cup Axial boom head on both sizes.

**BLACK/ORANGE** 407.71260.030 135-195, 150-210

### FEATURES

SPECIFIC BOOM PROFILE CONSTRUCTED FROM CONTINUOUS ALLOY TUBE

ROBO EVA GRIP

26MM DIAMETER TUBE, T8 ALLOY, 1.8MM WALL THICKNESS

CONTINUOUS ALUMINUM FRONT AND BACK END.

DOUBLE PIN ADJUSTMENT

60CM ADJUSTMENT FOR MAXIMUM SAIL COVERAGE

AXIAL BOOM HEAD WITH RDM

RDM AXIAL FRONT-END

## CARBON TECH BOOM

Tech Carbon composite booms are stiffer than alloy and resemble the unique looks of the C-100. Full monocoque. 140 is a full RDG 24,5mm boom, other sizes feature a 26mm RDG. Continuous carbon composite front- and backend increase the stiffness.

**BLACK/BLUE/ORANGE** 407.71245.000 140-190, 160-220, 180-240

### FEATURES

ROBO EVA GRIP  
SPECIFIC BOOM PROFILE CURVE  
24,5MM REDUCED DIAMETER GRIP AREA FOR THE 140  
26MM REDUCED GRIP AREA FOR THE OTHER SIZES

CARBON COMPOSITE 70%  
DOUBLE PIN ADJUSTMENT  
AXIAL BOOM HEAD WITH INTEGRATED SKINNY ADAPTER

## CARBON C100 BOOM

The C100 140 is a full RDG 24,5mm boom, other sizes are 26mm RDG diameter. Continuous carbon frontend and carbon backend for the stiffest boom construction available. Wide tailends on the big sizes.

**BLACK/BLUE/ORANGE** 407.71250.010 140-190, 160-220, 180-240

### FEATURES

SPECIFIC BOOM PROFILE CURVE  
ROBO EVA GRIP  
24,5MM REDUCED DIAMETER GRIP AREA FOR THE 140  
26MM RDG IN THE OTHER SIZES

DOUBLE PIN ADJUSTMENT  
AXIAL BOOM HEAD WITH INTEGRATED SKINNY ADAPTER  
C-100 140/160/180 WITH WIDER BACK END

**BASEPLATE PLUS M10**

408.00735.000

**FEATURES**

COMPLETE ASSEMBLED MASTFOOT WITH  
UNIVERSAL JOINT. WITH JOINT SAVER AND M10  
NORTH PIN

**MASTERJOINT BASEPLATE  
M10 SPECIAL + BOGE**

408.00753.000

**FEATURES**

COMPLETE ASSEMBLED MASTFOOT WITH  
UNIVERSAL JOINT AND MASTADAPTER.  
WITH JOINT SAVER AND M10 NORTH PIN

**MASTERJOINT BASEPLATE  
M10 + ADAPTOR**

408.00754.000

**FEATURES**

COMPLETE ASSEMBLED MASTFOOT WITH  
UNIVERSAL JOINT AND MASTADAPTER. WITH  
JOINT SAVER AND M10 NORTH PIN

**MASTERJOINT BASEPLATE  
M10+PULLEY+ADAPTER**

408.00755.000

**FEATURES**

COMPLETE ASSEMBLED MASTFOOT WITH UNIVERSAL JOINT WITH  
MASTADAPTER AND PULLEYHOOK.  
WITH JOINT SAVER AND M10 NORTH PIN

## CARDAN JOINT BASEPLATE

408.00756.000

### FEATURES

COMPLETE ASSEMBLED MASTFOOT WITH CARDAN JOINT.  
WITH JOINT SAVER AND M10 NORTH PIN. IDEAL FOR USE IN  
COMBINATION WITH AN INFLATABLE BOARD

## MASTERJOINT BASE PLATE M10

408.00768.000

### FEATURES

COMPLETE ASSEMBLED MASTFOOT WITH UNIVERSAL JOINT.  
WITH JOINT SAVER AND M10 NORTH PIN

## TRIMADAPTER RACE FOR RDM

408.00740.000
